

TAWC - Toronto Airport Workers' Council - updated links
An update on some background projects in the works at Pearson

****Thank you to those who advised us that the link within the "ACCESS Job search" PDF form was not working properly - it has been corrected below****

For many years the Toronto Airport Workers' Council has been a place for all front line employees at the airport to come together and support each other.

The major airport unions recognised years ago that we needed a place where major issues that affect us all here at Pearson could be debated and addressed collectively. TAWC was formed so that all front line employees (unionised and non-unionised) could come together to improve our work environment as a whole.

Some of the projects that our group has been pushing for over the past several years are living wages, a workers resource center, and round the clock airport childcare facilities for all Pearson workers.

Although the COVID-19 pandemic has had a devastating impact on all airport workers, TAWC and its members have been working hard with the GTAA in the background, and some significant gains have been made towards a Virtual Resource Center.

As a result the following first courses are now available for registration being to all employees at Pearson Airport.

Attached are the notices for the first 3 events, all are free for any co-worker from YYZ but spaces are limited.

These are incredible opportunities for our co-workers as they not only include the course, but materials including things like \$500 in new clothes for job interviews.
