**Phone Number: 905-676-4293**

With Local Elections about to commence, I would like to take this opportunity and ask you for your support in re-electing me for the position of Vice President.

For those who don't know me, I have been involved with the union since 2007 starting in Health and Safety then in 2011, I became a VP for local 4092.

I believe that in order to affect change, one needs to get informed and get involved and that is something I have always strived to do. I have never shied away from standing up for peoples' rights or from working hard in order to get the job done. I am confident that I have the skills, passion and perseverance to continue in my role as an effective representative for all our local members. We all deserve a voice, let me be yours at the local level.
