

Yuliya Milcheva

Economics graduate with 10 years of experience as a Flight Attendant, including the last three years as a Service Director. Throughout my career I have worked closely with colleagues across the operation and have developed a strong appreciation for teamwork, professionalism, and mutual respect in the workplace.

During the recent strike, I volunteered my time in support of our collective efforts. This experience strengthened my commitment to workers' rights and reinforced the importance of collective advocacy within our union.

I am dedicated to contributing to a fair and effective workplace for all members. If elected, I will bring a thoughtful, collaborative approach and remain committed to representing the interests and concerns of our colleagues.
